

DOUGLAS-FIR FLOORING

DESCRIPTION

All our flooring is select B.C. Douglas-fir, which is premium tight knot grade with little to no open defects. It is tongue and groove edged, back relieved and end matched (standard for 1x10 and 1x12 wide plank boards only). This product is not supplied pre-finished, it is a finish-in-place flooring.

EXTERIOR SIDING

DESCRIPTION

Our exterior siding products are made using premium B.C. Douglas-fir or Western Red Cedar, depending on the clients intended use and aesthetic. Standard products come in 1x6 and 1x8 dimensions, but are available in any custom size depending on the requirements.

PRODUCTS

"ARC" Burned, washed and sealed with a premium quality interior/exterior grade BLACK waterborne stain on all four sides, ready for installation. This product was first developed as a custom order for an architect as an alternative to a full Shou Sugi Ban finish.

"Burned and Brushed" Burned, washed and sealed with a premium quality interior/exterior grade CLEAR waterborne stain to enhance the natural grain and colour. This product comes sealed on all four sides, ready for installation.

COBBLEWOOD FLOORING

DESCRIPTION

End grain cobble flooring. Technology going back centuries, these styles of cobbles can still be found on the streets of Victoria, B.C. to London, England. Nothing naturally withstands wear better than end grain, ask the best culinary chefs and butchers who have been cutting on end grain blocks for centuries. Treat like a tile by gluing and grouting in place as durable flooring or backsplash.
